# IFSA 2023 – A REAL AFRICAN-WIDE FOOD INDUSTRY SHOWCASE

This first time, REGIONAL event is poised to become the ideal meeting place in North Africa between the players in the agro-industry and food packaging sector players across all African and Mediterranean countries.

Tunis has a strategic geographical and political location placing it at the heart of innovation and competitiveness issues ensuring influence in both Tunisia and all African countries

IFSA covers the entire spectrum of food & beverage processing & packaging technology, cold-chain, warehousing and logistics solutions, IFSA is the go-to place for manufacturers, retailers, food service professionals, importers and distributors to source for solutions and new products.

## Focus on the Agri-food & Agro-industry sector in Africa

The agribusiness sector in Africa is a strategic issue for the industrialization and development of all countries on the African continent. For African economies, the agri-food sector is a real windfall; representing nearly **USD\$313 billion dollars**. The growth of this sector is credited by the involvement of the entire value chain: agricultural production, secondary processing, distribution and sales to consumers.

Retailing is currently experiencing an unprecedented boom in Africa. This is leading to an increase in available resources and an increase in demand for high quality food and agricultural products.

By 2030, companies operating in the agribusiness sector are likely to generate a one thousand billion dollar market. This growth highlights the many opportunities available to companies operating in this sector and to the various players involved in the value chain.

### Meeting the needs of the African market.

The development of the agri-food sector makes it possible to increase food self-sufficiency, stimulate the African economy and create jobs. However, despite Africa's wealth of resources, there is a serious lack of the business expertise needed to unleash the full potential of the agri-food sector.

The impediments to the development of this sector are due to the lack of human capacity and skills.

African industries do not have sufficient experience in terms of management and development of enterprises operating in the agribusiness sector.

It is also essential to control the different elements of the value chain to ensure the success of the agro-food sector.

With IFSA you can connect with potential business partners and make valuable connections within the international-African food industry.

## WHY IFSA IN TUNISIA?

The food-processing industry represents one of the driving industrial sectors of the Tunisian economy. It occupies a place of choice in the industrial fabric and represents the third manufacturing sector providing employment, illustrated by more than 1,060 companies, 201 of which are totally exporting, 2,048.8 million Tunisian dinars (MTND) of exports and 60.4 MTND of foreign direct investment flows.

Since 2011, Tunisia has been following the international standard for food safety management systems developed by ISO (ISO 22000). In addition, a specific system of control and prevention, known internationally as "Hazard Analysis Critical Point" (Hacp), has been adopted. In addition to the airport, maritime, road and telecommunications infrastructure, where Tunisia is among the most modern countries in Africa, Tunisia also has a quality technological infrastructure dedicated to food processing.

With the strong demographic growth in Africa, the AFI sector in Tunisia is inclined to play a strategic role:

- To modernize upstream the agricultural production sector in a Mediterranean country facing global warming. The setting up of integrated production chains or territorialized agricultural ecosystems is an indispensable prospect for progress;
- To contribute to food security in the Sahel and sub-Saharan African countries.

Tunisia is a member of the Common Market Eastern and Southern Africa (COMESA), the Community of Sahel-Saharan States (CENSAD), Pan-Arab Free Trade Area (PAFTA), the Arab-Mediterranean Free Trade Area (AGADIR) & the Arab Maghreb Union (AMU).

- COMESA has 21 member states, 17 of which are part of the COMESA FREE Trade Area - the DRC and Somalia are yet to join and Eritrea & Ethiopia are in the process of accession.

- CENSAD currently has 24 member states aspiring to establish an Economic Union which includes the free movement of goods, services and commodities. There is currently no free trade agreement in place.

- PAFTA is an FTA between 18 Arab countries (Algeria, Bahrain, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine, Qatar, Saudi Arabia, Sudan, Syria, Tunisia, United Arab Emirates, and Yemen).

- AGADIR provides for trade liberalisation among Egypt, Morocco, Tunisia and Jordan.
